

LISTING OF WISCONSIN AQUACULTURE VETERINARIANS

Wisconsin is a leader in aquaculture veterinary medicine. WDATCP has trained and certified a select group of private practice veterinarians to provide services to fish farmers. These veterinarians can provide official health certificates, including the Wisconsin Report of Veterinary Health Assessment of Fish (VHA), a requirement to stock fish into the waters of the state. They also may provide the opportunity to legally use certain drugs and provide disease prevention, diagnosis and treatment services.

ASHLAND COUNTY
